PITTSBURG, P. PHILADELPHIA, S-PIRST GAME FITTHULES, P. PHILADELPHIA. STATEMENT OF ME.

FITTHULES, July 24.—Pittsburg won two games from Philadelphia to day and the fluish in each contest was sensational. In the first Williams a home run drive in the minth sent in the three tailies heated by Pittsburg, and the cruted crowd showered silver and hills upon the star third baseman. A New System of Training Tables at Vale. NEW HAVEN, July 24. The Yale athletic managers have decided to do away with separate or independent training tables for the various squade of the university, and next fall will begin a new system, by which all the tables will be under one roof. This will be in a building being erected in the rear of the university building about a block west of the Yale campus. An addition about forty feet square is now being constructed to accommodate the athletes. It is expected that this will be completed by the beginning of the fall term, in order that it can be ready for the football candidates, who return on Sept. 20. Next fall only the football players will go to the table. During the winter some of the oarseen and track men may go, and in the spring the baseball candidates will be taken to the table. The quarters are so commodious that it will probably be possible for a number of students who were not able to make the team as regular members, but who wish to remain in training as substitutes, to obtain board with the teams at their own expense. university building, about a block west of the

Drizzling skies, damp seats and a track fetock deep in mud made yesterday's outing at Brighton Beach racecourse look more like a reminiscence of Guttenburg than a midsummer flature. The atmospheric outlook, however, was fairly encouraging at first and a crowd of average proportions made the trip. With something so tangible to figure on as three handleaus the card held out strong induce-ments for mathematical students of form, but they went wrong in each instance, although near enough to induce them to try again.

The most important of the handicaps was that for three-year-olds and upward at one mile and a sixteenth, but three of the most prominent candidates, Maximo Gomez, Bannockburn and Merry Prince, declined the saue. Even then calculations failed to hitch, Maxine being made a pronounced favorite over Kirkwood and Imp, with Tamor the outsider of the quartet Maxine and Kirkwood took turns at spoiling starts, and the former burst the barrier. Kirkwood was quickest to move when the flag fell, but Imp went up to him like a flash. Down the backstretch Kirkwood again assumed command, and, holding his advantage to the end, won by a length from the favorite, who beat Tamor three lengths.
